RESERVE BANK OF INDIA

Department of Regulation

Title: Master Direction on Business Continuity Management, 2026

Reference number: RBI/2026-27/68 DOR.BCM.REC/11/2026

Date: August 24, 2026

1. Planning and Analysis

1.1 These Directions shall apply to all Regulated Entities, and each entity shall maintain a Board-approved business continuity policy overseen by a Business Continuity Committee meeting at least once every three months.

1.2 Regulated Entities shall conduct a Business Impact Analysis for critical functions at least once every two years, and the analysis shall quantify financial, customer-service and regulatory consequences of disruption scenarios.

1.3 Regulated Entities shall document Recovery Time Objectives and Recovery Point Objectives for each critical function, and objectives shall be approved by the Board with dependency notes on people, systems and vendors.

2. Response and Readiness

2.1 Regulated Entities shall conduct disaster-recovery drills for core banking and payment systems at least twice every twelve months, and drill results shall be measured against approved Recovery Time Objectives with gaps remediated within 90 days.

2.2 Regulated Entities shall maintain pandemic and alternate work-site readiness, including seating capacity for at least 40 percent of critical-function staff and tested remote-access scaling for concurrent work-from-home load.

2.3 Regulated Entities shall maintain a crisis communication tree covering internal teams, customers and regulators, and disruptions expected to exceed 12 hours shall be notified to the Reserve Bank within 12 hours of invocation.

3. Assurance and Training

3.1 Regulated Entities shall subject business continuity arrangements to independent audit at least once every twelve months, and findings shall be placed before the Board with time-bound remediation plans.

3.2 Regulated Entities shall deliver business continuity awareness training to all staff at least once every twelve months, with role-based modules for incident-response team members and completion tracked centrally.

3.3 Regulated Entities shall map utility and vendor dependencies for each critical function, and single points of failure shall carry documented mitigations reviewed at least once every twelve months.
